PROFILE

Self-taught software developer currently pursuing a Bachelor of Computer Science degree with hands-on experience building responsive web projects, and interactive software systems. Skilled in Swift, JavaScript, Python, and UI/UX design with a strong focus on problem-solving, clean interfaces, and real-world project development.

TECHNICAL SKILLS

Languages: Python, JavaScript, Swift, HTML5, CSS3

Frameworks & Libraries: SwiftUI, Node.js, React (Basic), TailwindCSS

Tools & Platforms: Git, GitHub, VS Code, Xcode, Chrome DevTools

Concepts: Responsive Design, UI/UX Design, REST APIs, Debugging, Problem Solving

Creative Tools: Lightroom, Photoshop, Premiere Pro, DaVinci Resolve

PROJECTS

Smart Park (In Development)

Developing a smart parking management simulation platform with occupancy tracking, configurable dashboards, and simulated gate/access control systems.

Building modular event and secure parking modes with dynamic UI rendering and simulated hardware integrations.

Exploring computer vision workflows including parking analytics and license plate recognition systems.

Portfolio & Front-End Projects

Built responsive websites and interactive UI concepts using HTML, CSS, JavaScript, and SwiftUI.

Focused on clean design, usability, responsive layouts, and modern front-end development practices.

EXPERIENCE

Uber / Lyft – Self-Employed Driver (2022 – Present)

- Managed routes, schedules, and client satisfaction with consistent 4.9+ ratings.
- Strengthened communication and time-management skills through independent work.

Arrow Exterminators – Wildlife Technician (2017 – 2025)

- Conducted wildlife removal, property inspections, and safety compliance.
- Built discipline and attention to detail in technical field environments.

Carl Black Buick GMC / Neaton / Integrity Restoration (2011 – 2017)

- Experience in sales, warehouse logistics, and team coordination.
- Learned workflow management and professional customer communication.

U.S. Army Reserve (2011–2015)

Developed discipline, teamwork, adaptability, and operational responsibility in structured environments.

Education

Bachelor of Computer Science (In Progress) University of the People
Expected Graduation: 2028

Certifications & Technical Training

Google UX Design Certificate
Boot.dev
Odin
FreeCodeCamp
100 Days of SwiftUI
